

**EPEX SPOT is looking for a MARKET OPERATOR CONTINUOUS**

**fluent in English**

**based in Amsterdam**

## **THE COMPANY**

**The European Power Exchange EPEX SPOT SE** and its affiliates operate physical short-term electricity markets in Central Western Europe and the United Kingdom. Joining EPEX means to work for a dynamic company which operates in a constantly moving landscape, where regulation, power generation and consumption fundamentals keep evolving. EPEX SPOT plays a pivotal role by ensuring that the pricing of electricity on the wholesale market remains accurate by offering its members the right products for power trading. Our strength is our staff, consisting of ambitious team players who all want to shape the future of the European power market. Striving for the well-functioning Internal Energy Market, EPEX SPOT shares its expertise with partners across the European continent and beyond. We offer you the opportunity to be part of this endeavor. Do you want to change the world of power? Join us!

The European Power Exchange EPEX SPOT SE and its affiliates operate physical short-term electricity markets in Central Western Europe and the United Kingdom. As part of EEX Group, a group of companies serving international commodity markets, EPEX SPOT is committed to the creation of a pan-European power market. In 2018, its 289 members traded 567 TWh - a third of the domestic consumption in the eight countries covered. 49% of its equity is held by HGRT, a holding of transmission system operators.

## **MISSION AND CONTENT OF YOUR JOB**

The Continuous Market Operations team monitors the different trading platforms; being it a 24/7 business, ensuring the smooth and uninterrupted running of processes and communications is essential. The Continuous Market Operations team is located in Amsterdam and Leipzig; team spirit, cooperation and knowledge-sharing are vital success factors. Operating in a hectic and ever-changing market, key performance criteria are reliability, accuracy and efficiency.

Your main activities will be the following ones:

- Match supply and demand with the help of automated trading systems, as well as take care of timely and reliable reporting.
- Be the first point of contact for our (potential) Members and external clients, and pro-actively tackle and solve operational issues as experienced by them, and provide information in full compliance with rules and guidelines concerning confidential data.
- Process and analyze market information produced or received by the exchange market, including the management of the EPEX index, in support of internal and external publications.
- Take care of and be responsible for the daily operational trading processes of external parties, as per agreed Service Level Agreements, in which reliability, speed, and accuracy are crucial.
- Contribute to the development of new services and products, as well as to the modification of existing services and products in accordance with market/company demands and wishes.

- Execute validation tests of new systems and system upgrades.
- Support internal and external projects, for instance by participating in testing phases or by training fellow operators.
- Prepare and assist in the implementation phase of new markets, products and/or systems.
- Join company and/or third-party projects, together with colleagues from other teams and departments, and take the initiative to make sure input and views on Market Operations-relevant topics are given on a regular, timely and efficient manner, thus contributing to a best solution for all parties involved.
- Manage relations with external stakeholders such as TSOs, and partner Exchanges.
- Be willing and able to work 24/7, i.e. in day, evening and night shifts throughout the whole year (so also on holidays and weekends).

### **SKILLS & ABILITIES**

- You are able to work within a multi-cultural team and you have good communication skills.
- You are customer-oriented and able to work in stressful situations.
- You are methodic and rigorous, and have accurate analytical skills.
- You are able to work following strict procedures and fixed work instructions, whilst at the same time pro-actively looking to propose changes or improvements for (new) processes.
- You are comfortable in new areas that require experimentation and rapid problem-solving.
- You have a good knowledge of IT tool (MS-Office pack) are eager to learn/work with different/various systems (trading tools, data management tools, etc.).

### **EDUCATION AND EXPERIENCE**

- You have a university degree or equivalent, and affinity with the energy market, preferably with electricity trading, other commodities and/or stocks.
- You have a first experience in a comparable job.

### **LANGUAGE SKILLS**

- Fluent professional English both verbally and written is required
- Knowledge of German, French and/or Dutch is considered a plus

### **REMUNERATION**

- Fulltime
- Remuneration will be according to the candidate's experience and profile
