

EPEX SPOT is looking for a Scrum Master

Fluent in English

permanent employment contract

THE COMPANY

The European Power Exchange EPEX SPOT organizes and operates physical short-term electricity markets in 13 countries: in Central Western Europe, the United Kingdom, in Switzerland, the Nordics and Poland.

EPEX SPOT plays a pivotal role by ensuring that the pricing of electricity on the wholesale market remains accurate by offering its members the right market place for power trading. Our strength is our staff, consisting of ambitious team players who all want to shape the future of the European power market. Striving for the well-functioning Internal Energy Market and the energy transition, EPEX SPOT shares its expertise with partners across the European continent and beyond.

Joining EPEX means to work for a dynamic company which operates in a constantly moving landscape, where regulation, power generation and consumption fundamentals as well as financial technology keep evolving.

We offer you the opportunity to be part of this endeavor. Do you want to change the world of power? Join us!

As European Company (Societas Europaea) in corporate structure and staff, EPEX SPOT has a European DNA which impacts our mindset, our markets and our Mission. We drive innovation across European power markets. EPEX SPOT is based in Paris, Bern, Berlin, London and Vienna. 302 companies have traded 593 TWh of electricity on EPEX in 2019. EPEX SPOT is member of EEX Group, part of Deutsche Börse. European electricity transmission system operators hold 49% of EPEX SPOT through HGRT.

MISSION AND CONTENT OF THE JOB

The Scrum Master will actively work in the Project Departments specifically on managing the complete lifecycle of two products acting as Scrum Master, the two systems being key asset for EPEX SPOT business, driven by release management, in collaboration with several departments of the company. The company is engaged into an Agile transformation together with its service providers.

The Scrum Master will work daily in a stimulating international context, in tight coordination with partners and various teams requiring a high level of adaptability related to the challenges of multi-cultural projects.

If you are motivated and eager to contribute to this transformation, come and join us!

Your main missions will include the following:

- Take lead on two of the key systems of EPEX SPOT, and be the central interface with internal teams, our providers, and our clients, with a direct link to the core business of the exchange. Ensure an efficient stakeholder management in the heart of the company priorities.
- Ensure the deliveries meet the planning, quality, and budget high standards of EPEX SPOT. Drive the project team to the completion of the product roadmap objectives and deliveries.
- Provide backlog management, iteration planning, and elaboration of the user stories. Work closely with Product Management to understand strategic priorities of the company, plan and prioritize accordingly the product features of the backlog.
- Propose innovative solutions. Initiate the product plan, work with the team, and elaborate with them the necessary project framework. Lead the planning product release plans and set expectation for delivery of features.
- Define, follow-up and report on progresses, project KPIs, risk, planning to key stakeholders. Keep a problem-solving oriented mindset, look after solution in collaboration with the project team, provide an active role in mitigating them, report and escalate whenever necessary.

- Contribute actively to business projects, reflect their needs into the product plan, and manage continuously the dependencies of these projects with the products.
- Organize and coordinate the release implementation cycle. Take lead on meetings and project documentations.

The position can be subject to evolution depending on candidate profile and experience.

SKILLS & ABILITIES

- You are pro-active and very well organized,
- You are ready to take the extra mile and get out of role to serve and work with the team,
- You have excellent communication skills, both in written and verbal form,
- You can summarize complex items and report in a clear manner and in a multi-location framework,
- You have a taste for taking the lead on the topics you're involved in,
- You are able to understand system related topics, keen to work close in an environment surrounded by IT, business needs, and to drive appropriate solutions,

... this position is made for you!

EDUCATION

- Master's degree. A specialization in (IT) engineering and/or Energy would be a real plus. A certification in Agile would be appreciated.

LANGUAGE SKILLS

- Fluent English (written and verbal) is required (working language). French and/or German/Dutch would be a real plus, with a strong ability to communicate in conference calls or in physical meetings

EXPERIENCE

- Minimum 5-year experience in project management in an international environment

REMUNERATION

- According to the candidate's experience and profile

LOCATION

- Paris, occasional short travels in Europe
